Fuel Mix Disclosure Notice April 2022-March 2023

The Electricity (Fuel Mix Disclosure) Regulations 2005 inserted a new standard condition into electricity supply licences requiring licensees to notify customers annually of the fuel source and environmental impact of electricity supplied to them each year.

The average fuel mix of the total amount of electricity purchased for supply by Wilton Energy Limited during the period 1 April 2022 to 31 March 2023 was as follows:

Fuel Source	Electricity supplied by WEL (%)	GB Average (for comparison) (%)
Coal	7	3.4
Natural gas	73.5	39.3
Nuclear	1.7	13.9
Renewable	12.2	40.8
Other	5.6	2.6

The environmental impact on a per kWh basis is as follows:

	Electricity supplied by WEL	GB Average (for comparison)
Emissions of carbon dioxide	383g/kWh	199g/kWh
Production of High Level Radioactive Waste	0.000119g/kWh	0.000973g/kWh
